LIGHT DIVIDER „SPOTLIGHT“

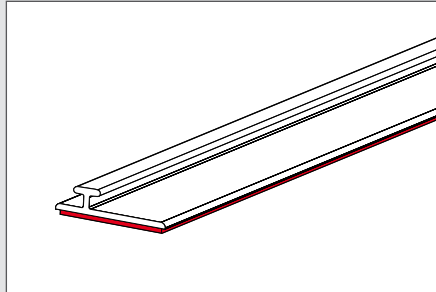

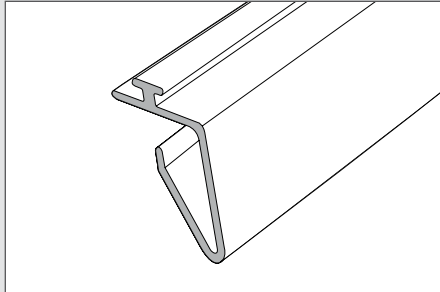

oechsle display systems
reliable and innovative

A complete set of light dividers „SPOTLIGHT“ consists of the following components:

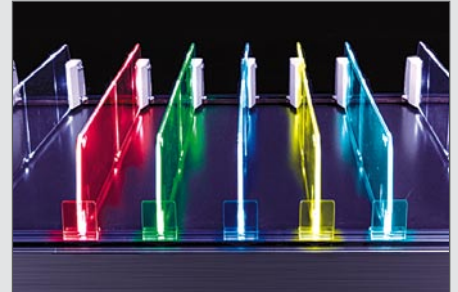

T-RAIL

To fix the light dividers at the front shelf edge.
Depending on application requirements use e.g. PRKL, PRT-20-M, etc.

Let's go wild!

Get out more of your shelving
with oechsle „SPOTLIGHTS“!

PRT-20-M-LED: CONTACT RAIL WITH MAGNETIC TAPE

For the power supply of the light dividers and fixing at the shelf's rear edge.
1 contact rail per shelf required (length depending on shelf width).

Code-no.
49015-00-LED/0998 (shelf length 1000 mm)
49015-00-LED/1248 (shelf length 1250 mm)

You can create fantastic effects by using various colour foils: Simply put them into the LED-unit – done.

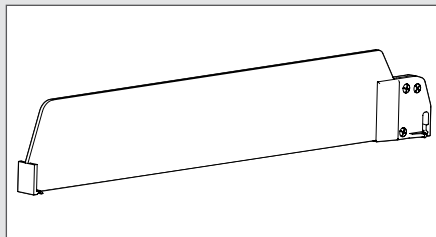

... and the light dividers are sparkling in bright colours!

Choose out of red, blue or green coloured foils.

SHELF DIVIDER PR 60 WITH LED-UNIT

Possible with all shelf dividers system S height 60 mm. We recommend to use max. 18 light dividers per contact rail.

Code-no.
40360-88-LED (shelf depth 370 mm)
40460-88-LED (shelf depth 470 mm)

More colours and light dividers in different lengths are available upon request.

SHELF DIVIDER PR 60 WITH LED-UNIT AND CABLE

To plug into the mains adaptor (for the power supply of the contact rail) use 1 divider with cable per shelf.

Code-no.
40360-88-LED (shelf depth 370 mm)
40460-88-LED (shelf depth 470 mm)

We will be pleased to provide you with a specific quotation based on your individual requirements.

Call us!
